MOHAMMED AYAD

Full Stack Developer

9074731468| ayadmohammed403@gmail.com| LinkedIn | GitHub | Portfolio | Leetcode

PROFILE SUMMARY

MERN Stack Developer with hands-on experience building scalable full-stack web applications using React.js, Node.js, Express.js, and MongoDB. Proficient in REST API development, authentication systems, and real-time communication using WebSocket/WebRTC. Experienced with cloud deployment on AWS and CI/CD pipelines. Strong focus on writing clean, maintainable code and delivering high-performance applications.

SKILLS

- **Languages:** JavaScript, TypeScript, HTML, CSS,
- **Frontend:** React.js, Redux Toolkit, Tailwind CSS, Bootstrap
- **Backend:** Node.js, Express.js, REST APIs, WebSocket, WebRTC
- **Database:** MongoDB, PostgreSQL, Firestore, Redis
- **Cloud & DevOps:** AWS (S3, EC2, CloudFront, ACM), Docker, CI/CD, AWS CodePipeline, CodeBuild, Nginx
- **Tools:** Git, GitHub, Postman, JWT, Axios, Prisma, Cloudinary, Figma

PROJECTS

2D Metaverse Platform *(Ongoing)* Code

- Developing a real-time 2D virtual environment platform inspired by Gather Town with room-based interactions.
- Implemented **real-time user synchronization** and presence using WebSocket.
- Built interactive environments using **Phaser.js and Tiled maps** with collision handling.
- Integrating **WebRTC** for room-based audio/video communication between users.
- Designed scalable backend architecture using **Node.js, TypeScript, Prisma, Redis, and OAuth authentication**.
- Following a **monorepo architecture with Turborepo** for clean code organization and scalability.
- **Tech Stack:** React, Node.js, TypeScript, Prisma, Redis, WebSocket, WebRTC, Phaser.js, Tailwind CSS, , OAuth, Turborepo, Git.

Learning Management System (LMS) Live Code

- Built a full-stack LMS platform supporting **Student, Instructor, and Admin roles**.
- Developed secure authentication with **OTP verification and JWT-based authorization**.
- Implemented features like **course enrolment, Wishlist, cart, and Razorpay payments**.
- Designed dashboards with **analytics and revenue tracking (70% instructor / 30% platform split)**.
- Integrated AWS services for deployment and frontend hosting.

- **Tech Stack:** MERN, TypeScript, Redux Toolkit, Tailwind CSS, Razorpay, AWS (EC2, S3, CloudFront, ACM, CodePipeline, CodeBuild), CI CD Pipeline (CodePipeline, CodeBuild), Cloudinary

E-commerce Fashion Website Live Code

- Developed a responsive e-commerce fashion website with React and Firebase, including product browsing, cart management, Wishlist, secure payment options, and admin features for product and order management.
- Tech Stack: React, HTML, CSS, Bootstrap, JavaScript, Firebase (Authentication, Firestore, Storage), REST API

Secure File Handling Platform Live Code

- Developed a scalable, file management platform using Amazon S3. Built with a React.js frontend and Node.js backend with JWT-based authentication. Features include secure file upload, preview, download, metadata storage, and a responsive user dashboard.
- Tech Stack: React, Node.js, Express, Tailwind CSS, MongoDB, AWS S3, JWT

Restaurant Website Live Code

- Built a fully responsive restaurant web app using React.js and Bootstrap with Razorpay integration for secure payments. Includes user features like menu browsing, cart, table booking, and order tracking, along with an admin panel for managing menu items and orders. Implemented JWT-based authentication and role-based routing.
- Tech Stack: React.js, Node.js, Express.js, MongoDB, Razorpay, JWT, Bootstrap

EXPERIENCE

MERN Stack developer Intern

Bridgeon Solution Aug 2025 - present

- Gained hands-on experience with **React, TypeScript, Redux Toolkit, Node.js, Express.js, MongoDB, PostgreSQL, Prisma, WebSocket, WebRTC**, and REST API development.
- Worked on building full-stack features, debugging issues, writing reusable components, and improving backend API performance.
- Collaborated with the team using Git/GitHub, participated in code reviews, and improved communication, teamwork, and problem-solving skills.
- Learned fundamentals of deploying and maintaining applications, schema design, authentication workflows, and modern development best practices.

EDUCATION

Bachelor of Computer Application

Yenepoya University 2022 - 2025
